HEARING RESEARCH

Author Index Volume 116

Bobbin, R.P., see Skellett, R.A. (116) 21
Britton, B.H., see Revelis, J. (116) 119

Clark, G.M., see Huang, C.Q. (116) 55
Cullen Jr., J.K., see Skellett, R.A. (116) 21

Dodane, V., see Kurc, M. (116) 1

Fallon, M., see Skellett, R.A. (116) 21

Gerdemann, M., see Kabudwand, E.A. (116) 131

Hefeneider, S.H., see Trune, D.R. (116) 65
Hienz, R.D., Stiles, P. and May, B.J.
Effects of bilateral olivocochlear lesions on vowel formant discrimination in cats (116) 10
Huang, C.Q., Shepherd, R.K., Seligman, P.M. and Clark, G.M.
Reduction in excitability of the auditory nerve following acute electrical stimulation at high stimulus rates: III. Capacitive versus non-capacitive coupling of the stimulating electrodes (116) 55
Huang, G., see Santos-Sacchi, J. (116) 99

Ito, M., see Kelly, J.B. (116) 43

Kabudwand, E.A., Nubel, K., Gerdemann, M., Scholz, G. and Mrowinski, D.
Low-frequency masking for detection of endolymphatic hydrops in patients with glaucoma (116) 131
Kachar, B., see Kurc, M. (116) 1
Kaga, K., see Suzuki, M. (116) 107
Kakigi, A., and Takeda, T.
Effect of artificial endolymph injection into the cochlear duct on the endocochlear potential (116) 113
Kelly, J.B., Liscum, A., van Adel, B. and Ito, M.
Projections from the superior olive and lateral lemniscus to tonotopic regions of the rat's inferior colliculus (116) 43
Kempton, J.B., see Trune, D.R. (116) 65
Khanna, S.M., Ulfendahl, M. and Steele, C.R.
Vibration of reflective beads placed on the basilar membrane (116) 71
Kurc, M., Dodane, V., Pinto, D.S. and Kachar, B.
Presynaptic localization of G protein isoforms in the efferent nerve terminals of the mammalian cochlea (116) 1

Liscum, A., see Kelly, J.B. (116) 43

May, B.J., see Hienz, R.D. (116) 10

Mitchell, C.R., see Trune, D.R. (116) 65
Moore, J.K., see Shore, S.E. (116) 33
Mrowinski, D., see Kabudwand, E.A. (116) 131

Nubel, K., see Kabudwand, E.A. (116) 131

Pinto, D.S., see Kurc, M. (116) 1

Revelis, J., Thompson, A.M., Britton, B.H. and Thompson, G.C.
Effects of *para*-chlorophenylalanine (pCPA) on the bush baby auditory brainstem response (116) 119
Robertson, D., see Wang, X. (116) 86

Santos-Sacchi, J., and Huang, G.
Temperature dependence of outer hair cell nonlinear capacitance (116) 99
Scholz, G., see Kabudwand, E.A. (116) 131
Seligman, P.M., see Huang, C.Q. (116) 55
Shepherd, R.K., see Huang, C.Q. (116) 55
Shore, S.E., and Moore, J.K.
Sources of input to the cochlear granule cell region in the guinea pig (116) 33
Skellett, R.A., Cullen Jr., J.K., Fallon, M. and Bobbin, R.P.
Conditioning the auditory system with continuous vs. interrupted noise of equal acoustic energy: Is either exposure more protective? (116) 21
Steele, C.R., see Khanna, S.M. (116) 71
Stiles, P., see Hienz, R.D. (116) 10
Suzuki, M., Yamasoba, T. and Kaga, K.
Development of the blood-labyrinth barrier in the rat (116) 107

Takeda, T., see Kakigi, A. (116) 113
Thompson, A.M., see Revelis, J. (116) 119
Thompson, G.C., see Revelis, J. (116) 119
Trune, D.R., Kempton, J.B., Mitchell, C.R. and Hefeneider, S.H.
Failure of elevated heat shock protein 70 antibodies to alter cochlear function in mice (116) 65

Ulfendahl, M., see Khanna, S.M. (116) 71

van Adel, B., see Kelly, J.B. (116) 43

Wang, X., and Robertson, D.
Substance P-sensitive neurones in the rat auditory brainstem: possible relationship to medial olivocochlear neurones (116) 86

Yamasoba, T., see Suzuki, M. (116) 107

HEARING RESEARCH

Subject Index Volume 116

Animal psychophysics
Olivocochlear lesion; Speech perception; Background noise (Hienz, R.D. (116) 10)

Antibody
Auditory brainstem response; Inner ear; Heat shock protein 70; CBA/J mouse (Trune, D.R. (116) 65)

Artificial endolymph injection
Endocochlear potential; Negative endocochlear potential (Kakigi, A. (116) 113)

Auditory brainstem
Superior olivary complex; Ventral nucleus of trapezoid body; Substance P; Olivocochlear neuron (Wang, X. (116) 86)

Inner ear; Heat shock protein 70; CBA/J mouse; Antibody (Trune, D.R. (116) 65)

5-Hydroxytryptamine; Up-regulation (Revelis, J. (116) 119)

Auditory nerve
Direct current (DC); High rate electrical stimulation; Electrically evoked auditory brainstem response; Cochlear implant (Huang, C.Q. (116) 55)

Auditory system
Sound frequency; Retrograde transport; Lateral lemniscus; Superior olivary complex; Inferior colliculus (Kelly, J.B. (116) 43)

Axonal transport
Fluorogold; Cochlear nucleus; Superior olivary complex; Inferior colliculus (Shore, S.E. (116) 33)

Background noise
Olivocochlear lesion; Speech perception; Animal psychophysics (Hienz, R.D. (116) 10)

Basement membrane anionic site
Development; Blood-labyrinth barrier; Maturation; Polyethyleneimine; Rat (Suzuki, M. (116) 107)

Basilar membrane
Beads; Mechanics; Guinea pig; Model (Khanna, S.M. (116) 71)

Beads
Basilar membrane; Mechanics; Guinea pig; Model (Khanna, S.M. (116) 71)

Blood-labyrinth barrier
Development; Maturation; Basement membrane anionic site; Polyethyleneimine; Rat (Suzuki, M. (116) 107)

Capacitance
Outer hair cell; Motility; Temperature; Patch clamp (Santos-Sacchi, J. (116) 99)

CBA/J mouse
Auditory brainstem response; Inner ear; Heat shock protein 70; Antibody (Trune, D.R. (116) 65)

Cochlea
G protein; SNAP-25; Nerve terminal; Hair cell; Efferent system (Kurc, M. (116) 1)

Auditory nerve; Direct current (DC); High rate electrical stimulation; Electrically evoked auditory brainstem response (Huang, C.Q. (116) 55)

Cochlear nucleus
Axonal transport; Fluorogold; Superior olivary complex; Inferior colliculus (Shore, S.E. (116) 33)

Development
Blood-labyrinth barrier; Maturation; Basement membrane anionic site; Polyethyleneimine; Rat (Suzuki, M. (116) 107)

Direct current (DC)
Auditory nerve; High rate electrical stimulation; Electrically evoked auditory brainstem response; Cochlear implant (Huang, C.Q. (116) 55)

Distortion product otoacoustic emission
Protection; Noise exposure (Skellett, R.A. (116) 21)

Efferent system
G protein; SNAP-25; Cochlea; Nerve terminal; Hair cell (Kurc, M. (116) 1)

Electrically evoked auditory brainstem response
Auditory nerve; Direct current (DC); High rate electrical stimulation; Cochlear implant (Huang, C.Q. (116) 55)

Endocochlear potential
Negative endocochlear potential; Artificial endolymph injection (Kakigi, A. (116) 113)

Endolymphatic hydrops
Glaucoma; Low-frequency masking (Kabudwand, E.A. (116) 131)

Fluorogold
Axonal transport; Cochlear nucleus; Superior olivary complex; Inferior colliculus (Shore, S.E. (116) 33)

G protein
SNAP-25; Cochlea; Nerve terminal; Hair cell; Efferent system (Kurc, M. (116) 1)

Glaucoma
Endolymphatic hydrops; Low-frequency masking (Kabudwand, E.A. (116) 131)

Guinea pig
Beads; Basilar membrane; Mechanics; Model (Khanna, S.M. (116) 71)

Hair cell
G protein; SNAP-25; Cochlea; Nerve terminal; Efferent system (Kurc, M. (116) 1)

Heat shock protein 70
Auditory brainstem response; Inner ear; CBA/J mouse; Antibody (Trune, D.R. (116) 65)

High rate electrical stimulation
Auditory nerve; Direct current (DC); Electrically evoked auditory brainstem response; Cochlear implant (Huang, C.Q. (116) 55)

5-Hydroxytryptamine
Auditory brainstem response; Up-regulation (Revelis, J. (116) 119)

Inferior colliculus
Auditory system; Sound frequency; Retrograde transport; Lateral lemniscus; Superior olivary complex (Kelly, J.B. (116) 43)

Axonal transport; Fluorogold; Cochlear nucleus; Superior olivary complex (Shore, S.E. (116) 33)

Inner ear
Auditory brainstem response; Heat shock protein 70; CBA/J mouse; Antibody (Trune, D.R. (116) 65)

Lateral lemniscus
Auditory system; Sound frequency; Retrograde transport; Superior olivary complex; Inferior colliculus (Kelly, J.B. (116) 43)

Low-frequency masking
Endolymphatic hydrops; Glaucoma (Kabudwand, E.A. (116) 131)

Maturation
Development; Blood-labyrinth barrier; Basement membrane anionic site; Polyethyleneimine; Rat (Suzuki, M. (116) 107)

Mechanics
Beads; Basilar membrane; Guinea pig; Model (Khanna, S.M. (116) 71)

Model
Beads; Basilar membrane; Mechanics; Guinea pig (Khanna, S.M. (116) 71)

Motility
Outer hair cell; Capacitance; Temperature; Patch clamp (Santos-Sacchi, J. (116) 99)

Negative endocochlear potential
Endocochlear potential; Artificial endolymph injection (Kakigi, A. (116) 113)

Nerve terminal
G protein; SNAP-25; Cochlea; Hair cell; Efferent system (Kurc, M. (116) 1)

Noise exposure
Distortion product otoacoustic emission; Protection (Skellett, R.A. (116) 21)

Olivocochlear lesion
Speech perception; Background noise; Animal psychophysics (Hienz, R.D. (116) 10)

Olivocochlear neuron
Auditory brainstem; Superior olivary complex; Ventral nucleus of trapezoid body; Substance P (Wang, X. (116) 86)

Outer hair cell
Motility; Capacitance; Temperature; Patch clamp (Santos-Sacchi, J. (116) 99)

Patch clamp
Outer hair cell; Motility; Capacitance; Temperature (Santos-Sacchi, J. (116) 99)

Polyethyleneimine
Development; Blood-labyrinth barrier; Maturation; Basement membrane anionic site; Rat (Suzuki, M. (116) 107)

Protection
Distortion product otoacoustic emission; Noise exposure (Skellett, R.A. (116) 21)

Rat
Development; Blood-labyrinth barrier; Maturation; Basement membrane anionic site; Polyethyleneimine (Suzuki, M. (116) 107)

Retrograde transport
Auditory system; Sound frequency; Lateral lemniscus; Superior olivary complex; Inferior colliculus (Kelly, J.B. (116) 43)

SNAP-25
G protein; Cochlea; Nerve terminal; Hair cell; Efferent system (Kurc, M. (116) 1)

Sound frequency
Auditory system; Retrograde transport; Lateral lemniscus; Superior olivary complex; Inferior colliculus (Kelly, J.B. (116) 43)

Speech perception
Olivocochlear lesion; Background noise; Animal psychophysics (Hienz, R.D. (116) 10)

Substance P
Auditory brainstem; Superior olivary complex; Ventral nucleus of trapezoid body; Olivocochlear neuron (Wang, X. (116) 86)

Superior olivary complex
Auditory system; Sound frequency; Retrograde transport; Lateral lemniscus; Inferior colliculus (Kelly, J.B. (116) 43)

Auditory brainstem; Ventral nucleus of trapezoid body; Substance P; Olivocochlear neuron (Wang, X. (116) 86)

Axonal transport; Fluorogold; Cochlear nucleus; Inferior colliculus (Shore, S.E. (116) 33)

Temperature
Outer hair cell; Motility; Capacitance; Patch clamp (Santos-Sacchi, J. (116) 99)

Up-regulation
5-Hydroxytryptamine; Auditory brainstem response (Revelis, J. (116) 119)

Ventral nucleus of trapezoid body
Auditory brainstem; Superior olivary complex; Substance P; Olivocochlear neuron (Wang, X. (116) 86)
